Issue Study

Climate Justice: A Call to Hope and Action

Edited by Pat Watkins

Study Leader - Debra Gerrish

This study invites you to understand climate justice, which means setting right our relationships with each other and the earth. Climate injustice is the result of climate change. The study will challenge you to see what needs to happen for climate justice to become a reality in the world today. The church needs to more powerfully model a way of doing it differently. This will entail not just focusing on the environment, but also asking hard questions regarding financial profit, a growing economy, our independent way of thinking and our understanding of efficiency.

This study explores the Bible and human sexuality as two essential components of our Christian faith. The Bible is part of the foundation of our faith. Human sexuality is part of who we are as human beings, created by God and called good. The study invites us to explore the complexity of the biblical text and our varied understandings of it in light of human sexuality.
