¹ In the case of a multi-point charge, the number of appointed clergy determines the number of lay delegates that may be elected, NOT the number of local churches within the charge. For example, in a three point charge served by one clergy person, only one lay delegate with voting privileges may be elected. If a local church is part of a multi-point charge and does not have one of its members elected as the (voting) lay delegate for the charge, that church may elect one member to serve as a collegial lay representative. The church shall notify the Superintendent prior to Annual Conference who is filling this role. The collegial lay representative shall have voice, but not vote, at Annual Conference.
